

2021 Foliar Trials on Corn

Active Ingredient 1	Rate	Active Ingredient 2	Rate	Active Ingredient 3	Rate	Average Moisture	Average Test Weight	Average Yield	Replications	Advantage
Nutribolt Foliar Prebiotic	1 Quart	TruTrack HD	3 oz.			21.4	56.7	260.9	3	15.8
Nutribolt Foliar Prebiotic	1 Quart	Nutribolt Liquid Calcium	1.5 Gallons	TruTrack HD	3 oz.	19.8	55.2	255.75	3	10.65
Nutribolt Liquid Calcium	2 Gallons	TruTrack HD	3 oz.			20.47	56.27	253.4	3	8.3
Homestretch Sulfur	1 Quart	TruTrack HD	3 oz.			20.37	56.6	248.13	3	3.03
Untreated						20.21	56.6	245.1	3	
Envita	10 oz.	TruTrack HD	3 oz.			20.13	56.9	242	3	-3.1

All Trials Were Conducted in Dekalb County Illinois. This sight was based on 6 row entries and each replication was 120 feet long. Each treatment was replicated 3 times. The timing for all applications took place at V5 as a single application. Weather and environmental conditions play a role on all treatments each year. This shows the findings for one specific sight in 1 specific year. We will release the year over year summary in a seperate sheet.
